There's nothing more appealing about a man in a suit and tie. Admit it, you were all swooning over Jamie Dornan and that sleek silver tie in 50 Shades – we certainly were! The Irish-owned menswear brand just launched its Christmas 2015 collection of ties bringing together timeless style with on-trend colours and textures. His guest style will be seriously on point. Plus they make the perfect stocking filler at a bargain price of €15 each and they are delivered in a dapper gift box. Neck-ties, skinny ties and bow-ties galore, every dress code is covered from glamorous celebrations to more laid-back vintage affairs.

The Silk Collection compliments the cool elegance of silk with warmer festive colours. Our top pick is the Trey Red striped tie for a New Year's Eve bash or the James Silver skinny tie for added elegance to any suit.

The Distinct Collection is for men who don't mind turning heads. Boasting a bright but tasteful colour palette and fashion-forward designs, each piece adds a pop of colour to the winter wardrobe. The Quincy Orange bow-tie is a bold statement to complete formal attire.
